

Legrand cabling system LCS³ Enclosures

cable bridges and connecting sets

4 460 72

4 460 73

4 460 48

Material: steel
 Finishing: powder coating
 Colour: RAL 9011 (black)

Pack	Cat.Nos	Cable bridges	Pack	Cat.Nos	Connecting sets
1	4 460 72	<p>For crossing a hot or cold aisle containment system Suitable for wide or narrow cable ducts Sliding system: the distance between the cable ducts can be bridged at any spot without any sawing being necessary. Cable ducts can be installed at various distances along the depth of the aisle (for example to save on the number of branches in the main supply or for intra-connectivity within the aisle containment) Several bridges can be used depending on the capacity required, or to keep various cables separated Height: 120 mm Width: 150 mm Usable length: 990 to 1750 mm Supplied with assembly materials</p>	1	4 460 48	<p>Set of internal and external rack connectors (6 pieces) for connecting cabinets together Various combinations are available of both internal connector tubes and external connector plates External connector plates can be screwed onto the outsides of the structural uprights and are invisible when the door is closed Recommended installation: at least 2 connections in the front and back planes Use 2 sets for 25 U or more Capacity: 150 mm Supplied with fastening materials</p>
1	4 460 73	<p>Cover for cable bridges For keeping content safely separated and providing protection against dust Can be assembled directly onto the cable bridges Possibility to have the covers overlap so that multiple covers can be used to ensure proper coverage of the cable bridge Capacity: 150 mm Usable length: 1030 mm Supplied with assembly materials</p>
